PROJECTS

PlanQuest - Goal Management Platform | Demo

React.js, Express.js, PostgreSQL, Prisma

Designed and developed a full-stack platform for planning and team management, supporting over 100 users.

Implemented a modern full-stack architecture with notifications, badge-based gamification, feedback, requests, and analytical dashboards.

E-Commerce Website | Link

Next.js 14, Tailwind CSS, Shadcn UI

Created a modern and responsive e-commerce platform with an optimized user interface, resulting in a 20% faster load time.

AI Chatbot | [Link](#)

Next.js 14, Node.js, Express.js, Clerk

Developed a chatbot application integrating the Gemini API to provide intelligent responses to user queries. The system saves conversation history for each user to maintain context.

Guest House Management Website | [Link](#)

Next.js 14, TailwindCSS, Django

Engineered the backend for a booking and management system with secure admin and user authentication.

E-Learning Platform | [Link](#)

React Native, TypeScript, Gluestack UI

Designed the UI for an educational mobile app, providing learning content to over 50 users.

Android Launcher App

Flutter, Firebase

Contributed to the development of an Android launcher app with a Firebase backend, ensuring user privacy and data security.
